### Hydraulic Forging Press PA1345 (3200 To)

Manufacturer – Stanko, Russia

Year of manufacturing : 1975

Nominal power, tf – 3200

Nominal power of pushing cylinder, tf – 32

Maximum skid stroke, mm – 2000

Distance between table and skid (in upper position), mm – 4000

Distance between columns :

-front, mm – 3000

-side,mm – 1200

Nominal force of the cylinders moving the table, tf – 95

Nominal travel of the table, mm – 5000

Table dimensions, mm – 6000x2400

Nominal power of the extractor, tf – 165

Extractor travel:

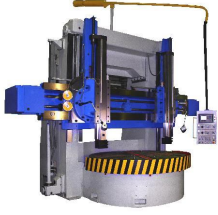

-total,mm – 1300

-below table,mm – 590

Number of working strokes per minute – 10

Number of finishinf strokes per minute – 80-90

Working liquid pressure from pump installation, kgf/cm<sup>2</sup> – 320

Dimensions, mm :

-left to right – 11.800

-front to back – 24.800

Height, mm :

-with extractor – 16.840

Without extractor – 14.160

Weight, kg:

-of the press, aprox. – 465.900

-of the complete installation, aprox. – 565.000
